Selectmen Vote to Take Over Land

Acquisition of the plot of land shown above at the right, covered with timbers of the razed Blue Moon Restaurant in Provincetown, was sought today by Provincetown selectmen for the town. If the town acquires this land, from Standish Street,

shown in the foreground, to the corner of the New York store, visible just beyond the collapsed building to the right of the telephone poles, it would be possible to widen Standish Street enough to form a four-car width junction with Commercial Street.
