FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

Currently "Seasons: An Inn for All"; 160 Bradford Street is a 2-story, 2-bay building. The gambrel roof has flared eaves and a decorative truss in the gable end. This truss and a squared bay window on the west façade indicate the Stick style, while the verticality of the building is reminiscent of the Gothic Revival. The squared bay window faces Pearl Street. The remainder of the windows are single or paired 2/2 DHS with inoperable shutters. 2 shallow, shed-roofed wall dormers break the roof cornice on the west façade. Brackets are located here and at the bay window eaves.. A 1-story open porch with chamfered posts is located on the eastern façade. A brick interior chimney is located on the roof slope, near the ridge. A 1 story mansard roof section with a separate entry is located to the rear. This also has 2/2 DHS windows. There are exposed rafter ends below the eaves, and rosettes where the wall dormer break the gable roof flares.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
