

③ I am sorry there is no
card with my street but
they are all as narrow
as the one in this picture.
This has a side walk on
one side but mine (Central St)
has none.

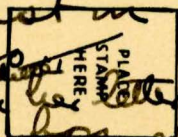

From my front door I see
the ocean and a light
house across the harbor.
I am told that soon
radar will be used
and light houses
abandoned. Everything
picturesque is going
all over the world.

Marjie tells me how
things have been spoiled
around Venice since I
was there. She enjoyed
seeing bland Curtensions
and Eleanor Aust in
a short time ago
a few days ago in her letter
she mentioned a
(artist) who will be at Gull Lake

A few days ago – no yesterday – in her letter she mentioned a boy (artist) who will be at Gull Lake.....

I have been reading you the
last number of a French
art magazine, which happens
to have an article on
the cat. Those things I
love are attracting birds
on pure mathematics.
They look better in color,
which he also does scientifically

I have since heard of a safe

there. I hope they are well

I am sending you the last number of a French art magazine, which happens to have an article on Lurcat. Those things of his are abstractions based on pure mathematics. They look better in color, which he also does scientifically. I got home at noon on Sun. Have since heard of Js safe arrival in Florida. A letter from Margie awaited me here. Hope you are well and cheerful.

Best wishes,

Ada

 I am writing you this morning about going to that tourist agency about my return ticket. When you do go, please let me know to say that the R.R. fare to Boston will be charged at the rate they give tourists after a certain stay in a country (greatly reduced) with tourist like R.R. fares but very little. Another letter came from you yesterday. I agree with all you say about a certain family but it is best for us, for the present, to take their point of view. The younger generation don't even know the real facts - certainly the youngest know none of it - I found out. It doesn't really matter as long as things are made easier for us. No letter yet from I. Hope you are now feeling very well. So G. seems to be a certainty. The weather continues to be wonderful here. For the present I will keep my mouth out of things, as the crisis seems to be over. I am not worried - everything well with me.
